

ASBESTOS MILLBOARD – DATASHEET

Asbestos Millboard is a high-temperature resistant insulation material designed for thermal and electrical insulation applications. It provides excellent mechanical strength and flame resistance.

Sr No.	Particulars	Units	Standard	Test Result
1	Density (Nominal)	gms/cc	1.1 – 1.3	1.15
2a	Tensile Strength (Along Grain)	kg/cm ²	12	20
2b	Tensile Strength (Across Grain)	kg/cm ²	6	10
3	Loss on Ignition (Max)	%	15	15
4	Moisture Content (Max)	%	2	2

Temperature Resistance: Up to 500°C

Flame Test: Does not burn

Thickness: 3 mm, 5 mm and 10 mm
